

The Northwestern Ontario Prospectors Association (NWOPA) is pleased to announce the 2019 Bernie Schnieders Discovery of the year.

Since 2001 NWOPA has presented awards recognizing lifetime achievements, mineral discoveries and mine developments. Lifetime achievement is based upon cumulative work, discoveries and contributions to the prospecting, exploration and mining community of Northwestern Ontario. The *Bernie Schnieders* Discovery of the Year Award recognizes an exceptional discovery in Northwestern Ontario during the previous calendar year with the Developer of the Year Award recognizing an outstanding mineral development during the previous calendar year. In 2010 NWOPA added the *Dan Calvert* Distinguished Service Award to acknowledge exceptional service to the mineral exploration community. The award was named in honour of Dan Calvert and in 2016 NWOPA renamed the Lifetime Achievement Award in honour of Dave Christianson; both of these gentlemen were long-time prospectors and supporters of mineral exploration in Northwestern Ontario.

On behalf of NWOPA, the Awards Committee is pleased to announce the 2019 recipient:

Bernie Schnieders Discovery of the Year (2019)

Spark Pegmatite – Frontier Lithium Inc.

As this year's awards banquet was cancelled, NWOPA has deferred the 2019 awards for Lifetime Achievement and Distinguished Service until recipients can be honoured in a banquet setting at a later date. Developer of the year will not be awarded for 2019.

NWOPA would also like to recognize the recipients of the Bernie Schnieders Memorial Award from Lakehead University. This year, for the first time, Lakehead was able to split the award into two with one award going to a first year MSc. student and one to a second year MSc. student.

- Justin Jonsson (1st year) - Petrogenesis of mineralized horizons within the Offset zone of the Lac des Iles Mine, N. Ontario
- Andrew Jedemann (2nd year) - The Geochemistry and Alteration of the Pemberton Hills Green Rock Environment, Vancouver Island, BC

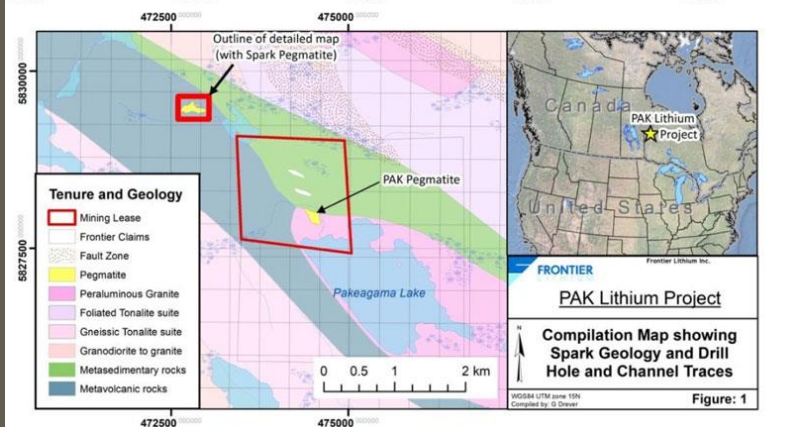

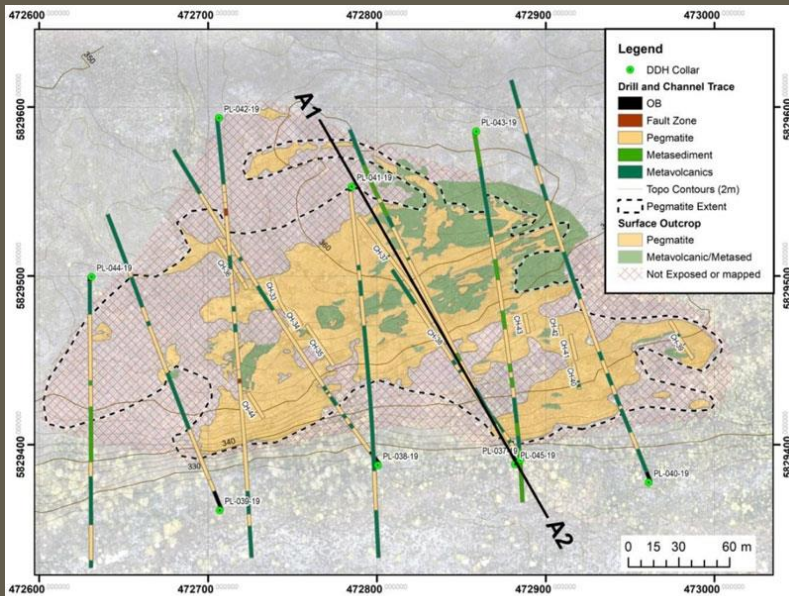

Details about the award recipients are attached. For further information about these awards, do not hesitate to contact:

BERNIE SCHNIEDERS DISCOVERY OF THE YEAR AWARD

- In January 2019, Frontier Lithium received significant results from the newly discovered Spark Pegmatite showing, including results from 236 m of channel samples at an average grade of 1.91% Li₂O
 - Frontier Lithium Inc., news release, January 17, 2019
- Frontier completed two drill programs on the Spark Pegmatite in 2019 which were successful in identifying widespread lithium mineralization at depth
 - Significant results include assays of 1.61% Li₂O over 231 m and 1.4% Li₂O over 215 m
 - Frontier Lithium Inc., news release, April 9 and September 24, 2019
- In early 2020, Frontier released an initial resource estimate for the Spark Pegmatite less than 14 months after the initial discovery
 - Frontier Lithium Inc., news release, February 4, 2020

Deposit	Category	Tonnage	Grade (% Li ₂ O)	Cut-off
Spark	Indicated	3,248,000	1.59	0.65
	Inferred	12,228,000	1.36	0.65
