

SGH – Soil Gas Hydrocarbons

SOIL GAS HYDROCARBON (SGH) INTRODUCTORY SHORT COURSE

Activation Laboratories invites you to join us for an upcoming introductory short course that we will be hosting on Soil Gas Hydrocarbons (SGH). The course will take place at the Valhalla Inn, at the Northwestern Ontario M&M conference.

The course that we will be conducting will cover various introductory aspects of the SGH geochemistry. Highlights of this half-day short course will include an in-depth understanding of SGH and recent SGH projects.

- **Location:** Valhalla Inn – Room: Viking Room
- **Date:** Monday April 6th 2009
- **Time:** 1:00pm – 4:00pm
- **Duration:** 3 hours
- **Cost:** \$90.00 per person (includes snacks and handouts)

Course Outline – Course Presented by Dale Sutherland:

Sampling – Design, Sample Types, Containers, Horizons
Sample Preparation – In Field, In Lab, Sources of Contamination
Analysis – Precision, Specificity, Interferences, Robustness
Hydrocarbons – Source, Migration, REDOX
Uses – Confirmation, Vectoring, Deposit Identification, Interpretation
Reporting – Interpretation Format, SGH Signatures
Case Studies – Blind Tests, Positive Results, Negative Results
Performance – Reliability, Pathfinders
