

Breanne Beh

Director

Northwestern Ontario Prospectors Association

---

Breanne started her career as an exploration geologist for Probe Mines at their Borden Gold Project in Chapleau, Ontario, where she worked from 2012-2016. She enjoyed working as part of the team on the fast-paced exploration project which was awarded the 2013 Ontario Prospectors Award. In 2016, she decided to return to work for Probe Metals where she is currently a project manager working on a number of their exploration projects in Ontario, Quebec and Nova Scotia.

Breanne attended the University of Calgary where she graduated with a BSc in Geology before completing her MSc in Geology at Lakehead University.
