

# Ontario Mineral Exploration Showcase 2026

**“30 Years of Highlighting the Exploration of Northwest Ontario”  
April 8 & 9, 2026**

Valhalla Inn, Thunder Bay, Ontario

Again, this year the Showcase will be presented to allow Industry and Ministry to present their results and successes over the past year. In past years we have had up to 700 attendees comprised of Prospectors, Junior and Major company representatives, investors, suppliers, contractors, and investors. Displays and booths (60) are set up adjoining the speaker's hall.

We divide the two days of presentations to highlight similar areas of exploration or commodity across the Province.

We have invited the Resident Geologist Program to introduce the exploration activities in their areas. As well requests have gone out to the OGS program for presentation of program results.

Talks will commence both days at 9:00 am and continue until 4:30 pm. Each day is punctuated with a morning refreshment break (20 minutes), a one-hour lunch break and afternoon refreshment breaks (20 minutes).
